## Pitch Deck Digital Product

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Nam malesuada laoreet velit sit amet hendrerit. Vestibulum nec malesuada nisl. Phasellus

Presented By Juliana Silva

A graphic of a smartphone with a black frame and rounded corners. The screen is a solid bright yellow color. In the bottom right corner of the screen, the words "COLLECTOR" and "HUB" are written in a bold, black, sans-serif font, stacked vertically. The phone is set against a light gray background with faint, larger-scale geometric shapes.

**COLLECTOR  
HUB**

# HOBBY X : HOME FOR COLLECTORS

*An Ai enabled all-in-one platform to discover, discuss, plan, and showcase what you collect – the ONE App every collector opens instinctively because that's where their interest lives*

Three smartphones are shown side-by-side, each displaying a solid orange screen. The text 'COLLECTOR HUB' is centered at the bottom of each screen in bold black font. The phones are depicted with realistic metallic frames and rounded corners. In the background, there are faint, semi-transparent grey shapes that resemble the outlines of other phones or app icons, creating a sense of depth and a digital environment.

**COLLECTOR  
HUB**

**COLLECTOR  
HUB**

**COLLECTOR  
HUB**

# DEFINING A HOBBY X COLLECTOR

*Collectors buy to **BUILD** and **GROW** their collection - not to consume. They love to display, document, photograph, and discuss about their collections. They buy with intent and buy repeatedly*

## What they collect

- Action Figures
- Designer Toys & Blind Boxes
- Model Kits & Lego
- Diecast & Scale Model cars
- Sneakers (collector-grade, drop-driven)
- Trading Cards (Collectible/Hybrid Grade – Not Pure Play)

*We selected these categories because their collectors are highly active, fueling multi-billion-dollar markets backed by well-known brands and vibrant communities. Unlike traditional collectibles such as stamps or coins, these hobbies create thriving economies and passionate, brand-centric ecosystems*

# WHY COLLECTORS MATTER

Collectors are not casual toy buyers — they are high-value, passion-driven buyers with recurring discretionary spend, sitting at the center of huge and currently underserved fandom economies such as Anime, Pop Culture, Movies, Fashion, Gaming, Events & Conventions, to name a few. Tapping into the collector layer unlocks value across passion-driven industries

Collectibles Is a Large and Fast-Growing Global Category — India Is Early and Accelerating

The global collectibles market is estimated at ~USD 25–40Bn, growing at a CAGR of 8–10%, Driven by:

- Collectible not just a hobby but as an alternative investment
- Growth in Limited-edition, Blind Box and Drop culture
- Expansion of global anime, gaming & franchise IP , **cosplay**
- **Growing popularity of Collectible focused events - Comicon, Wonder festival , diecast/hobby expos**

Indian market is growing fast (even 20–30% as per some estimates), though relatively small today( ~₹1,500–2,000 Cr), it's among the fastest growing global markets, driven by:

- Rising anime & gaming consumption
- Increasing global ecommerce access
- Strong growth in urban disposable income

Strong & Visible Growth Signals

- Active Facebook, Instagram, Reddit & Discord communities — large and growing
- Comic Con India: ~200K attendees annually, growing every year
- Direct operating insights from within the ecosystem through our experience at InABox

- *Note: The collectibles market estimate refers to our focus segments (Action Figures, Designer Toys & Blind Boxes, Model Kits, Trading Cards) and excludes broader collectibles such as fine art, coins, stamps, antiques, etc.*
- *Sources: Industry research, focused interviews, and sales estimates from major retailers and platforms*

# CURRENT OPTIONS

Collectors Are Thriving — But Fragmented Without Hobby X. India's collector economy is active across multiple touchpoints — yet operates in silos

- **Social Communities**

- 10K–100K+ follower Instagram pages for **news and updates**
- Facebook /Reddit/Discord Communities for **networking and trade**
- Hundreds of WhatsApp & Telegram groups for **networking and trade**

*Community engagement is strong — but scattered across platforms*

- **Specialty Retailers & Importers**

- Dedicated collectible retailers (Inabox, FatCat, Superhero Toy Store, etc.)
- WhatsApp/Instagram only stores

*Commerce is active — engagement is limited*

- **Ecommerce Platforms**

- Amazon & Flipkart

*Transactional presence — without hobby focus*

- **Comic Con & Fandom Events**

- Comic Con India now operates across 11 cities with 200,000+ annual attendees
- Local regional meetup events

*Offline enthusiasm demonstrates real potential but is limited by engagement frequency*

Collectors are active, engaged, and spending. What's missing is a unified digital layer that connects community, commerce, and discovery.

# THE PROBLEM

## Collectors scattered (medium)

Collectors are scattered across various platforms, making it difficult to find large, engaged communities sharing similar interests. This fragmentation hampers meaningful connections and knowledge exchange.

## Fragmented Information

Essential data—such as new releases, reviews, features, events and updates—is spread across Instagram, Facebook, blogs, WhatsApp groups, and seller channels. There's no centralized platform to access all relevant information easily.

## Buying Challenges

Buyers face challenges in private messaging, negotiations, and price discovery across various platforms, with trust being a major concern.

## Selling Difficulties

Sellers struggle to reach the right buyers efficiently, making the process costly and ineffective.

## Limited Brand-Collector Engagement

Brands have minimal or no direct connection with collectors, limiting opportunities for engagement, feedback, and exclusive releases

## EVENT discovery

how to find out about events

Disconnected Communities

# OUR SOLUTION

## A Dedicated Social Network

A centralized space where collectors, brands, and enthusiasts can connect, share, and collaborate in real-time. It fosters community building around shared passions.

## All info at one Place

Strong community will discuss latest releases, product reviews and features, events, will keep everyone updated

## EVENT discovery

how to find out about events

## Collectible trading

A feature that enables users to list their collectibles for sale or trade. Instead of handling transactions directly, the platform emphasizes trust through a vouch system, where users can verify and endorse each other's credibility.

## Store Pages

Offline and online stores can create their own dedicated store pages within the platform. These pages serve as a marketplace, allowing stores to showcase their products, offer special deals, and connect directly with customers

## Enhanced Engagement for Brands

Brands can create and manage their own official pages within the platform. This allows them to share news, launch new collectibles, announce events, and engage directly with their community.

# OUR PLATFORM

*We leverage Ai and to just solve the problem but also give them more features to keep them engaged*

# OPPORTUNITY

Hobby X: The Digital Home of Collectors Where They Live, Transact, and Engage Every Day - unlocks two powerful economic engines:

- **Direct Commerce Engine — A Unified Platform for Collectibles Selling & Reselling Enabling:** **change ecommerce to something else as no transactions happening**
  - Structured buying & selling across categories
  - Concentrated, high-intent buyer traffic
  - Trust & reputation systems
  - Repeat transaction flow
- **Some revenue levers that could be activated:**
  - Seller subscriptions
  - Premium visibility
  - Drops & exclusive launches
  - Future: auctions & live selling
- **A Niche Audience Engine (Strategic & Scalable) — Unlocking Access to a High-Income, Passion-Driven Audience for:**
  - **IP & Collectibles Brands**
    - Collectible manufacturers, retailers, and resellers
    - Gaming publishers
    - Trading card companies
    - Grading & authentication firms
  - **Fandom-Led Industries**
    - Movies & anime studios and streaming platforms
    - Gaming ecosystems
    - Fashion & streetwear collaborations
    - Comic Cons & event organizers
    - Media houses & creator networks
  - **Youth & Culture Brands**
    - FMCG & lifestyle brands targeting Gen Z & millennial fandom segments
    - Limited-edition collaborations
    - Community-led activations

And much more.

# MONETIZE BUSINESS ANGLE (NEED IMPROVEMNT)

Multi industry users  
retargeting

Inviting International brands

**Event Expansion:**

**Data-Driven Insights:**

**Expansion to Asia:**

Our platform will have diverse audiences across anime, collectibles, gaming, comics, auto, and more which can be retargeted via ads and events

Numerous international brands are eager to enter the market, recognizing its rapid growth and engagement.

With the success of Comic-Con India, more international events like Wonder Festival, Hobby Expo, Diecast Expo, and others are emerging, signaling strong market growth.

Leveraging collector and community discussion data to enable precise targeted advertising, enhance brand engagement, and unlock new monetization opportunities.

Beginning with expansion into India to build a strong user base, then leveraging the well-developed markets in Southeast Asia—such as Singapore and Malaysia—to scale regionally.

# ROAD MAP

## Roadmap: 0-18 Months

Launch App V1 with a community-first approach

Target to onboard XX users and gather valuable user data

Partner with Comicon for event collaborations and brand visibility

Focus on community building, engagement, and feedback collection

### **Introduce monetization features:**

Brands and store pages

Affiliate links

Paid features and benefits

Data selling or advertising opportunities

## Roadmap: 36+ Months

Expand to a global audience

Localize platform for international markets

Develop advanced monetization and enterprise solutions

Establish a dominant presence in the global collector and community space

# WHY US

- We have built inabox 0 to x in x years
- while building we understood problems of a collector and as inabox we cannot solve all the problems, we can bring alot of real collectors on day 0
- we did interview with 100s of collector to identify the pain points and solutions opportunities
- Avi , sahil and rajnish profiles mainly focussed on how it helps on what are we building

# THE ASK - PRE-SEED

*Raising 3 Cr for 15% equity, For an 18 month runway to:*

*Build and launch the Hobby X MVP*

*Establish Hobby X as home for collectors*

*Prove habit, engagement, and trust*

*Learn where monetization can work (without forcing it)*

# PRE-SEED TO → SEED READINESS

*By the end of 18 months, we want to be Seed round ready – In tangible terms it means:*

## *A. Habit & Engagement (Primary Metric)*

- *18–20K engaged collectors - We track this with MAU - A unique user who performs at least one meaningful collector action within a 30-day period - Key collector actions include:*
  - *Add/update an item in collection, List an item for sale, Message a seller, Track a release, Add to wishlist, Follow a category, Post a collection update, Comment in a discussion, Follow another collector*
  - *Simply opening the app or logging in is not a key collector action*
- *WAU / MAU  $\geq$  30-35% signalling that 30-35% of users are engaging every week*

*We want to focus on limited metrics based on meaningful actions that signal meaningful engagement*

## *B. Early Interest signals for Monetization*

- *Inbound Enquiries/interest from sellers/brands*
- *Small exploratory pilots for promotions/launches/sponsored placements*
- *Early Traction on in-App Gamification & Token Rewards*

*Outcome: Pre-seed proves collector habit + platform relevance*

**The MAU targets roughly translate to 70-100K installs over an 18 month period. Sustained cohort retention in 25-30% range, consistent with passion driven community platforms**

# SLIDE 12: THE SEED ROUND (NEXT PHASE)

*We seek 10–12 Cr for ~18–20% equity; Target pre-money: ₹40–45 Cr for a Runway of ~24 months to -*

## *A. Scale What Works*

- *Grow to 60–120K collectors*
- *Maintain WAU / MAU  $\geq$  30% at scale*

## *B. Build Monetization Products*

- *Seller & brand launch tools*
- *Paid visibility / featured drops*
- *Event & IP partnerships*
- *Others*

## *C. Prove Business Direction*

- *1–2 monetization paths working consistently*

*And prepare for Series A*

# SLIDE 12: THE SEED ROUND (NEXT PHASE)

*We seek 10–12 Cr for ~18–20% equity; Target pre-money: ₹40–45 Cr for a Runway of ~24 months to -*

## *A. Scale What Works*

- *Grow to 60–120K collectors*
- *Maintain WAU / MAU  $\geq$  30% at scale*

## *B. Build Monetization Products*

- *Seller & brand launch tools*
